

**AMERICAN VETERANS EDUCATIONAL FOUNDATION**  
**SCHOLARSHIP PROCEDURES**

**All Veterans educational grants will be distributed to a local, regional, or state veterans' organization on a once a year basis.** All participants in the Fund will have the opportunity (**not a mandate**) to either name a local veterans organization (of their choice), to receive their proportionate share of the annual grant distributions or allow the American Veterans Educational Foundation (AVEF) to select a Veterans organization in their local, regional or state areas to receive their proportionate share. The selected veterans organization(s) receiving the grants will have **full authorization to select** veterans (and/or their families) **and distribute** related grant monies, **as they see fit**, for American Veterans educational / training related expenses. It will be expressed as a desire (**not a mandate**) that such educational assistance be given priority for service disabled veterans and/or their families.

Once a year, around Veterans Day, the tabulation will be made to assess the proportionate share (based upon their average annual fund participation balance) of grant monies to be distributed.

**Announcements of the grants and the related distributions will, once again, be made on or about Veterans Day of each year.**
